User Manuals

Please read this instruction before installation.

IMPORTANT SAFETY INSTRUCTIONS

Read this user manual

All safety and operating instructions in this user manual should be read before operating the product

Keep this user manual

This user manual should be retained for future references.

Head Warnings

Be cautious about warning signals on the product.

Follow Instructions

Please follow instructions in this user manual

Attachments

To avoid danger, please do not use attachments not recommended by the product manufacturer.

Mounting

Do not place the product on any unstable cart, stand, tripod or table to avoid injury on children and adult. Please only use attachments indicated by product manufacturer.

Temperature

Please use this product within operating temperature 32°F ~ 100°F (0°C ~ 45°C), relative humidity 20%-80%. The product should be situated away from any heat source such as radiators, heat registers, stoves or other products (including amplifier) to product heat.

Avoid Liquid Invasion

Avoid the invasion of any liquid. Avoid placing it near bathtub, sink, kitchen, wet basement or swimming pool. Do not place product on any uneven surfaces and keep a distance of at least 6 inches from wall. Do not place heavy objects on top of the unit and at sealed areas to avoid heat ventilation problems.

Product Protection

Please do not place any attachment or parts inside the product to avoid contacts with voltage points that could result an electric shock or fire.

Heat Ventilation

There is no heat ventilation on the upper and lower part of the product, therefore to avoid over heating, please do not block any ventilation openings with objects (e.g. carpet). Please allow the opening to have 10cm distance for ventilation.

Grounding or Polarization

This product could be equipped with an alternate plug.

Power –Cord Protection

Power supply cords should be routed so that they are unlikely to be walked on or pinched by items placed upon them. Pay attention to the connection of plugs.

Power Sources

This product should be operated only from the type pf power source indicated on the rear panel. If you are unsure of the type of power supply to your home, consult your product purchaser or local power company.

IMPORTANT SAFETY INSTRUCTIONS

Lightning and storms

Unplug the outlet during lightning, storms or long unused periods. This will prevent damages and power surges to the product.

Overloading

Do not overload wall outlets, extension cords or integral convenience receptacles as this can result in a risk of fire or electric shock.

Damage Handling

Unplug this product from the outlet of wall and request qualified service personnel under the following conditions:

- when the power supply cord or plug is damaged
- when the picture display gets dimmer
- when liquid has been spilled or objects have fallen on to the product
- when the product has been exposed to rain or water.
- Adjust only those controls that are in the instruction manual. For improper adjustments may result in damage and will often require extensive work by a qualified technician to restore the product to its normal operation.
- When the product exhibits a distinct change in performance-this indicates a need for repair service.

Replacement parts

When replacement parts are required, be sure that the technician uses replacement parts specified by the manufacturer or parts with same features. Unauthorized substitution may result in fire, electric shock or other hazards.

Safety Check

Upon completion of any service or repair to this product, ensure technician for proper operating condition performs safety checks.

Warnings

If the battery of remote control is incorrectly replaced, there will be a danger of explosion.

Storage

Keep the product in dim areas, room temperature and low humidity to maintain original condition. This will avoid danger.

Transportation

Since the product consists of glass and delicate electronic components, excessive shock or drop will result damages. Please handle the product carefully to minimize shock during transportation.

Recycling

The product utilizes tin-lead solder, and has a fluorescent lamp containing a small amount of mercury. For environmental considerations, disposal of these materials may be regulated in your community. For disposal or recycling information, please contact your local authorities, or Electronics Industries Alliance: <http://www.eiae.org/>

Cleaning

Unplug the product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use damp cloth for cleaning.
